

When people visit we like to ask them three questions. Here are some of the answers we received.

As the pastor of **THE BRIDGE Worship Center**, it is important to me to understand how our first time guest are welcomed. The one area I see that is our biggest problem is the number of people that attend. The only way we can conquer this area, is for more of the people that love the service, which many do, will come back and become a part of growing a GREAT church for Christ. Come and join us!
